## EXPERIENCE

---

**Full Stack Developer - Team Lead** Jul '25 — Present  
Losenyx Intellio & Security Pvt Ltd Kochi, India

- Led the development of ELEVATE, a full-stack placement preparation platform built to support students in improving their placement readiness, designed to handle 5,000+ concurrent users
- Using Stacks Fastify and PostgreSQL, optimized for high-concurrency performance and reliable data management.
- Integrated Docker containerisation into development and production pipelines, cutting environment-related deployment issues by 60% and streamlining CI/CD workflows.
- Led a team of 4 developers in Agile sprints, delivering ERP modules on schedule with consistent stakeholder demos and iterative feedback loops.

**Full Stack Developer** Jul '25 — Dec '25  
Vydurya Digital India

Karunagappally, Kerala, India Backend developer, React developer, Next.js developer

- Delivered Madhrasi Biriyanis, a full-featured food-ordering web application with a customer-facing storefront and a separate Admin dashboard, built with Next.js and integrated with a Node.js + MongoDB backend; handled 200+ daily orders post-launch.
- Built Dev Traders, a B2B trading platform with a Next.js public website and Admin portal featuring real-time inventory management, order processing, and live stock updates using WebSocket.
- Contributed RESTful APIs and responsive React UIs to Persian Peacock and a Domain Search Application as part of a cross-functional product team.
- Participated in 10+ client meetings covering requirement discussions, live feature demos, and technical progress updates, ensuring all deliverables aligned with business goals.

**Full Stack Developer** Dec '24 — Jun '25  
Data Valley Web Services Ernakulam, India

Backend developer, React Developer

- Led development of SNDPY, a full-stack Community Manager Application comprising 3 integrated products
- a Member Website, an Admin Website, and a React Native Mobile App
- built on the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Built the Ghandhibhavan Admin Portal in React.js, delivering content and event management with RBAC and dynamic dashboards used by 5+ administrator roles.
- Integrated and customised a Shopify storefront (Carolia Kids), implementing theme modifications, product catalogue management, and third-party app integrations that improved store performance.
